Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

ARE WELL PLEASED

War Investigators Satisfied With Results at Jacksonville.

FEW CASES OF NEGLECT

On Culpable Mismanagement Discovered by the War Commissioners at Camp Cuba Libre—Enlisted Men Testified Without Exception That They Were Receiving Enough to Eat and Wear.

Jacksonville, Fla., Oct. 21.—The war investigating commission concluded its labors at Jacksonville last night and left for Atlanta, expecting to take up business there.

The commission has spent four days in Jacksonville. This being the first of the camps to be visited, it has been awarded somewhat more of time than will be given to other points, with the possible exception of Chickamauga.

The commissioners are generally pleased with the result of their labors here. They have naturally met with complaints, but these have generally dealt with comparatively unimportant points and in very few, if any, cases have they indicated neglect or culpable mismanagement. Generally one private or noncommissioned officer from each regiment has been called, and in many cases more than one. In the case of enlisted men they were selected at random, the commissioners merely asking that men be sent to them without any specification of the purpose for which they were called. They have, without exception, said that they were receiving enough to eat and wear.

There were occasional complaints of defects in clothing or a request for a greater variety of food, but in no instance has a spirit of faultfinding been developed among this class of witnesses. In some cases a deficiency of supplies at the beginning of the camps history was shown and there has been more or less tainted meat received by the men, but was agreed by all the witnesses that the first condition was due to the congestion at Tampa and the latter to the climate.

General McCook and Colonel Saxton returned yesterday from their investigation of conditions at Tampa. They found the congestion that occurred at that point at the beginning of the war was due to the fact that ears were shipped from all over the country without being labeled and without forwarding bills of lading.

SANTIAGO NEWS.

Detroit Capital Being Invested at Manzanillo—See Supply Short.

Santiago de Cuba, Oct. 21.—An American syndicate, representing Detroit capital, has purchased a large tract of land at Manzanillo, where are several good iron mines. An agent of the syndicate is now there.

There has been some trouble at Manzanillo with regard to the landing of the Fourth Immune Regiment from the United States transport Romanian, which cannot get alongside the wharf owing to insufficient depth of water. The Bessie, which was sent there with rations, has been ordered to act as a lighter.

The inhabitants of Santiago are suffering severely from the failure of the ice works, which at present are broken down and unable to manufacture more than enough for a favored few. Some of the principal cafes get none at all.

The West India Cable company has laid a new cable from the city proper down to El Morro, a distance of about five miles. There it connects with the main line. The old cable was destroyed by the mining operations of the Spaniards in the harbor.

Some people in the world persist in clinging to old methods. There are men who still use a forked stick in place of a modern plow. There are also men, who, when they are troubled with a disordered stomach or liver, resort to the old-fashioned violent remedies that rack and rend the whole body, and while they give temporary relief, in the long run do the entire system a great amount of harm.

Modern science has discovered remedies infinitely superior to these old-fashioned drugs, that do their work by promoting the natural processes of excretion and secretion and gently correcting all circulatory disturbances. When a man feels generally out of sorts, when he loses sleep at night, when he gets up headache and with a bad taste in his mouth in the morning, when he feels dull and lethargic all day, when his appetite is poor and his food distresses him, when work comes hard and recreation is an impossibility, that man, though he may not believe it, is a pretty sick man. He is on the road to consumption, nervous prostration, malaria, or some serious blood disease. In cases of this description a man should resort at once to Dr. Pierce's Golden Medical Discovery. It is the best medicine for a weak stomach, impaired digestion and disordered liver. It is the great blood-maker and purifier, flesh-builder and nerve tonic. It cures 98 per cent. of all cases of consumption, bronchitis, lingering coughs and kindred ailments. Thousands have testified to its marvelous merits. It is a modern, scientific medicine that aids without goading nature, and that has stood the test for thirty years. Medicine dealers sell it.

Dr. Pierce's Pellets cure constipation.

has petitioned for a reduction of duties on common salt, which at present are \$1.10 per 100 kilos. The chamber contends that the duty of 50 cents would be enough. Dr. Donaldson, the collector of the port, in his report to General Wood on the subject, advises compliance with the request as reasonable.

A few weeks ago there were many complaints by the merchants that they could not get their goods through the customhouse, but there is no delay now. Indeed, goods lie on the wharf awaiting removal. Yellow fever has been completely stamped out at Guantanamo.

CAPTURING REBEL VESSELS.

Americans at Manila Have Taken Two This Week.

Manila, Philippine Islands, Oct. 21.—The United States cruiser Boston and the collier Nero, which, on Oct. 5, were ordered to proceed to Hong Kong, in connection with the recent disturbances in and near Peking, have arrived at Amoy, off the island of that name, in the province of Fo-Kien, opposite Formosa, the former short of coal and the latter with her cargo afloat. Well authenticated reports have reached here of a terrible state of anarchy in the southern Philippines. The Spaniards there are cooped up in the principal towns.

The Americans continue capturing the rebel vessels as they arrive at Cavite. Two have been captured this week.

WHAT WE ARE COMING TO.

According to the Rt. Hon. Henry Courtney.

London, Oct. 21.—Rt. Hon. Leonard Henry Courtney, former deputy speaker of the house of commons, and now Unionist member of parliament for the Bodmin division of Cornwall, speaking at Tedford, Cornwall, last evening said that one of the consequences of the war with Spain upon the American people had been to create a spirit which must in the near future lead to a great transformation of American character and policy.

"Instead of being a self-contained, industrious, peaceful and nonaggressive people," said Mr. Courtney, "the Americans, if they take sovereignty in Cuba, will have to keep a large naval and military force in order to make the influence of the United States felt. Although the American members of the peace commission have declared that the United States do not want Cuba or the Philippines, the history of our own country has shown that when once there was an occupation the intention to leave after disorder had been righted, has seldom been put into execution."

"The war emphasizes the necessity of the peace proposals of the czar. If there had been an organized tribunal to settle international quarrels the Hispano-American conflict might have been averted even after passion had been aroused by the Maine disaster."

Brooke on Seaman.

Washington, Oct. 21.—The war department has made public the following belated cablegram from Major General Brooke at Ponce regarding charges made by Surgeon Seaman, who recently testified before the war investigating commission: "Regarding Surgeon Seaman's complaint about rations, I find nothing in it. He never had charge of a hospital authorized to receive the 60 cents per man. All hospitals have received it since authority was received on the island to pay it."

Prisoners Ordered Paroled.

Washington, Oct. 21.—The secretary of war has cabled Major General Otis at Manila, authorizing him to parole 20 Spanish officers now in his custody as prisoners of war. It is understood that the prisoners desire to return to Spain.

Rations For Havana's Poor.

Havana, Oct. 21.—The steamer City of San Antonio is expected here today with 1,200,000 rations for the relief of the poor in this province.

DOCTORS' DAY

They Monopolized the Proceedings of the Civil Philanthropic Conference.

Battle Creek, Mich., Oct. 21.—Speakers in the civil philanthropic conference yesterday addressed an audience of physicians from various cities, 75 of them representing Chicago. Most of the speakers were Chicago doctors. Professor William Quinn of the Chicago College of Physicians presided. Dr. D. K. Steele of Chicago condemned sanitary conditions in public schools as did Dr. J. H. Kellogg of the Michigan board of health. Dr. Mary Greene, who has been detailed by the government to inspect sanitation of soldiers' camps, related results unfavorable to the management of the camps. Dr. Danforth of Northwestern University said that proper sanitation in cities is impossible, since politicians, as he asserted, are too busy handling health departments' money. Dr. Albert H. Bird dwelt upon tuberculosis, its causes, symptoms and cures. Professor H. P. Newman laid the responsibility of broken down lives largely to school boards. Dr. Charles B. Johnson contended that typhoid fever is an unavoidable disgrace to city health commissioners, because generally resulting from filth. Dr. M. E. Brown showed how the blood, brain and lungs are affected by nasal respiration.

HEARING

Restored to a Boy as Suddenly and Mysteriously as He Lost It.

Danville, Ky., Oct. 21.—Fred Cooper, a pupil at the Kentucky school for the deaf, surprised his instructors by suddenly announcing to them that his all druggists refund the money if it fails hearing had returned as mysteriously as it had left him two years ago. The on each tablet may

boy is 15 years old, and the son of Joseph Cooper.

Two years ago, while playing with some other boys, he suddenly lost his sense of hearing and all medical aid proved fruitless. He was sent to the school for the deaf to be educated in the sign language. While taking a lesson in lip reading he suddenly announced that he could hear everything about him. This proved to be true and the boy returned home.

BURNED TO DEATH

Mrs. Serena Johnson Dead as a Result of a Gasoline Explosion.

Chicago, Oct. 21.—In a fire following the explosion of a gasoline stove, Mrs. Serena Johnson was burned to death, and her son, Walter, 4 years of age, and Harvey Oie, 5 years old, were burned so badly that they cannot recover.

Reinstated the Police.

Pana, Ill., Oct. 21.—The city council by a vote of 7 to 2 has reinstated the old police force, whom Mayor Warren Penwell, son of Operator George V. Penwell, removed from office Oct. 11 on account of their alleged sympathy with union miners.

Knocked His Eye Out.

Berea, Ky., Oct. 21.—John Will Richardson, employed on a torapike near here, became enraged at a colored boy and struck him on the head with a pick, knocking out one eye and fracturing his skull. Richardson escaped.

Dreyfus in Paris.

Paris, Oct. 21.—An evening newspaper announces that Captain Dreyfus is already in Paris and is now confined in the fortress at Mont Valerien, to which he was secretly brought.

PRESIDENT MCKINLEY

Chief Magistrate of the Nation Visits the Hoosier Capital.

GREETED BY THOUSANDS

Who Packed the Streets, Anxious to See the President of the United States. Escorted to the Capitol by the One Hundred and Fifty-Eighth Regiment and the Two Indiana Batteries.

Indianapolis, Oct. 21.—President McKinley paid his first visit to Indianapolis since his election today, arriving in this city from Chicago on schedule time. The chief magistrate was accompanied by Governor Mount and his staff.

The train was stopped at the crossing at Washington and Noble streets in the east end of the city, and boarded by reception committee. Soon the president appeared, and as he was escorted to a carriage the vast throng in the streets broke into cheer after cheer. The carriages with the presidential party immediately started for the state capital, escorted by the One Hundred and Fifty-eighth regiment Indiana volunteers, batteries Twenty-seventh and Twenty-eighth, followed by a long procession of civil organizations and citizens in carriages.

All along the line of march the president was greeted with the greatest enthusiasm. He stood in his carriage bowing to the vast throngs that had turned out to welcome him to Indiana by their presence.

On reaching the statehouse, the president was escorted to a platform, erected near the building for the speaking, by Senator Fairbanks. As Mr. McKinley appeared on the platform the crowd again broke into the wildest cheering. When quiet was restored the president delivered an address much on the same lines of those he delivered in Chicago, as to the war and its results.

Immediately after the speaking the procession reformed and escorted the presidential party to the Union Station, where the Cincinnati, Hamilton and Dayton train was taken for Cincinnati.

McKinley Leaves Chicago.

Chicago, Oct. 21.—President McKinley and the members of his party left for Washington last night over the Pennsylvania road. The crowd that has followed him every time he has appeared in public, was with him to the last and it required the efforts of 150 policemen to restrain the throng which packed the depot to suffocation. Just as the train pulled out the president appeared on the car platform of the last car and bowed repeatedly as the crowd cheered him.

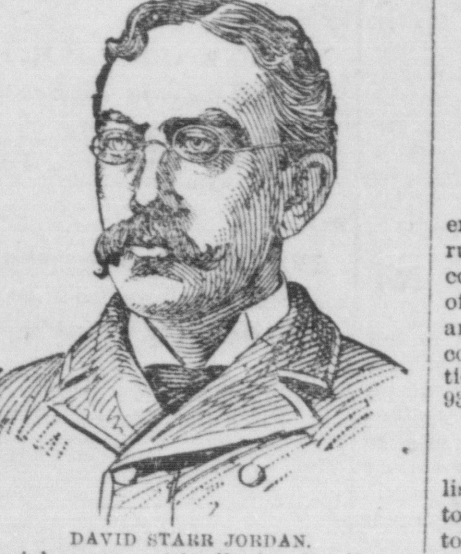

Disappointed.

Cincinnati, Oct. 21.—There is considerable feeling because President McKinley would not stop today for a reception here. The presidential train did not enter any depot or come into the city. There was much disappointment here last month when President McKinley failed to attend the national encampment of the G. A. R.

IMPERIALISM

President David Starr Jordan's Address Before the Liberal Congress.

Omaha, Oct. 21.—A bold and unmistakable argument against imperialism was made by President David Starr Jordan at last evening's session of the Liberal Congress of Religion, and it was listened to by a crowded church. Summed up, it was to the effect that a policy of expansion would make incumbent upon this country an expensive

DAVID STARR JORDAN.

colonial system with all that implies of a costly army and navy; that our government system would have to be largely changed from American republicanism to British imperialism; that the pursuit of war would take the place of the pursuit of peace; that it is not suited to this country; that the effects of living in the tropics is to degenerate the Anglo-Saxon character; that a better way is to preserve the friendship between this country and Great Britain, and, finally, that this nation stands for an ideal of individual citizenship, which is a higher purpose for humanity than national aggrandizement.

BANK CLERK

Missing and With Him Several Thousand Dollars of a Louisville Bank.

Louisville, Oct. 21.—Charles G. Hennig, the individual bookkeeper for the bank of Louisville, is missing, and he is believed to have appropriated from \$4,000 to \$8,000 of the funds of the bank. An expert bookkeeper is now at work on the books. Hennig has been missing from the city since Saturday last. The bank officials nor the police have any clue as to his whereabouts.

GERMAN NATIONAL.

Bank Examiner Young Still at Work on the Defunct Bank's Affairs.

Pittsburg, Oct. 21.—The crowds have ceased to surround the German National bank. Colonel Hugh Young, the United States bank examiner, is still at work on the investigation and does not expect to make a detailed report to the controller at Washington before next Tuesday. Acting President Myers said last night that no thought of prosecutions on account of alleged irregularities had presented itself in the investigation thus far. President Grootzinger's indebtedness, he said, was secured by mortgages on the two Allegheny taneries and was sufficient to protect the institution. Continuing he said: "Cashier Burgdorf, we found, was involved on paper paid by the bank with other prominent local people. I do not care to give the names of the persons nor state the nature of the paper. Nevertheless Mr. Burgdorf's account will not amount to over \$100,000. The bank is entirely solvent and all accounts will be paid in full as soon as the outstanding paper can be converted into cash."

J. D. Brown, one of the attorneys for the bank said that enough funds were in sight to declare a 20 per cent dividend next week, and he thinks the liquidation committee will order this paid.

ADVANCED PRICES

Action of Glass Combine at Pittsburg. Wage Committee Has Power to Act.

Pittsburg, Oct. 21.—The board of directors of the American Glass company, known as the windowglass combine, has decided to advance the old list price 6 per cent. A scale of the new prices will be sent to the trade early next week.

William Loeffler said last night after the meeting had adjourned that the wage scale question has been discussed, but left in the hands of the wage scale committee, with power to act. He said the strike in the windowglass trade would not be settled until the wages of the cutters and flatteners are agreed upon. The fact that some blowers and gatherers are in favor of going to work and that some of the independent factories are already working and 90 per cent of the producing capacity of the country will not resume until the cutters' and flatteners' scale is settled.

ENDED TWO SUITS

Married Her Lover and Compromised With a Railroad Company.

Hopkinsville, Ky., Oct. 21.—M. M. Martin, a teacher in the public school at Gracey, and Miss Gertrude Lucas of Caldwell county, were married in the president's office at the city bank here. Judge Cansler officiating. Miss Lucas had just received \$5,500 in compromise of a suit for \$25,000 damages against the Louisville and Nashville railroad.

She and Martin, who had been lovers for years, met by agreement at the bank, where they were married after her money had been paid her. Her father, who bitterly opposed the match, followed them but was too late to stop the ceremony. In his rage he swore he would disinherit his daughter.

BURST HER TUBES

Accident on the Torpedo-boat Davis in Which Eight Men Were Scalded.

Astoria, Or., Oct. 21.—The torpedo-boat Davis, which started on its official trip yesterday, was disabled by the bursting of a number of boiler tubes. Eight of the crew were badly scalded and three of them died soon after reaching here. The dead:

C. McNEELY.
E. LUTHE.
H. WOODS.
The seriously injured are:
H. Woods.
B. Ryan.
A. Johnson.
A. Buehl.

Asks to Be Relieved of Debts.

Chicago, Oct. 21.—Edward R. Brainard filed a petition of voluntary bankruptcy in the United States district court yesterday. He asks to be relieved of liabilities aggregating \$357,739.76 and scheduled assets in the form of accounts receivable and stock in corporations of the nominal value of \$58,932.57.

Not Credited.

Louisville, Oct. 21.—The story published in some of the St. Louis papers to the effect that the independent plug tobacco factories would combine to fight the American Tobacco company, and which received wide currency, is not credited by tobacco men in Louisville.

NEWS IN BRIEF.

The election of the citizens' ticket is a business matter in which every taxpayer of Jackson county has a keen interest. They are weary of officials who manage county affairs in their own interest.

The Dingley law put the country in good condition for war and helped it every day during the war. It put the balance of trade in our favor before the war and it has held it there under the extraordinary conditions of the last four months. It was intended as a peace law, but it has done good service as a war measure.—Chicago Inter-Ocean.

It is worrying the ring leaders that the people see through their scheme of trying to help their failing cause by leading in the nomination of a so-called republican ticket in opposition to the regular republican organization of the county. But they have deceived the people long enough and the people have decided that the days of the ring are numbered.

The ring leaders see that their only hope for success in the present fight is to divide the vote for the citizens ticket. To accomplish this has been their object all the time. It was for this purpose that the so-called republican convention was held at Brownstown. It was readily seen that Burrell was the controlling spirit in that convention, and that the ticket then nominated was put up in the interest of the ring. The people of the county see clearly that this was the purpose and they will stand solidly against every effort to bolster up the tottering cause of the ringsters.

UNION B. HUNT, republican candidate for secretary of state, was in the city a short time this forenoon. He spoke at North Vernon last night and speaks at Scottsburg tonight. He says the state will unquestionably go republican by a large majority.

John Hamacher is tilling the county. On numerous fence posts and telegraph poles he has tacked bills which read: "Vote for John W. Hamacher for commissioner of 2nd district." He purposefully avoids saying which ticket he is running on, which is further evidence that he is in the ring combine in the special interest of John Burrell.

GONE BACK ON IT.

Tom Taggart's Brief Play as a Gold Democrat in May.

Some of the Democratic pilots of Indiana who are now openly or tacitly supporting free silver, not because they believe in it, but because their party organization is committed to it were responsible for the following adopted at a Democratic meeting in Indianapolis, May 28, 1896:

Whereas, The advocates of free and unlimited coinage of silver in this state have organized and assumed to manage the affairs of the Democratic party, to enunciate its principles, and dictate its policies and are, and have been, attempting to forestall the free expression of opinion of a Democratic state convention to be held on the 24th of June, 1896; and

Whereas, We believe that the true principles of the Democratic party, as enunciated by Madison and Jefferson, and sustained by Jackson, Van Buren and Cleveland, require the maintenance of a sound financial system, based upon a coin of equal and exchangeable value throughout the commercial world;

Therefore, be it resolved that the following named persons be appointed as an executive committee, to whom the cause of sound money, as a Democratic principle, shall be committed, to wit:

Thomas Taggart, John W. Holtzman, S. O. Pickens, Pierre Gray, Henry Russe, James G. Canning, John W. Kern, A. Kiefer, Charles F. Piel, John R. Wilson, H. W. Lawrence, W. R. Myers, W. D. Bynum, James E. McCullough, M. O'Connor, Albert Lieber, J. L. Keach, Fred K. Mack, J. P. Frenzel and Samuel Rauh.

Thomas Taggart was made chairman of the committee and out of it came the gold Democratic organization of Indiana. He is now Chairman Martin's chief adviser in their party's free silver campaign, while John W. Kern is taking an active part in the organization and on the stump.

THE DILEMMA THEY ARE IN.

The army investigation at Washington is conducted by honorable men. They represent both the Democratic and Republican parties. No commission of similar character has ever been so thoroughly nonpartisan, and yet the newspapers that have industriously, and to the sacrifice of truth, abused the McKinley administration for its management of the war, question their honesty. It is a pitiful exhibition of the unjustness of accusers. Their accusations, at the very outset, proved false by such distinguished soldiers as Generals Wheeler, Lee, Boynton and others, they mildly place these men in the light of concealing truth. They now cry out call the newspaper correspondents and managing editors, the very men who are indirectly on trial for circulating exaggerated reports and who more or less have been moved to prepare false statements of war management in order to sell papers or satisfy personal likes and dislikes, since the stories of correspondents have been proved unreliable, what weight can be attached to their testimony under oath? If they tell the truth to save themselves from perjury, they must belie their newspaper reports; if they sustain their reports they place themselves in opposition to the manly, soldierly and the demostrious testimony of Wheeler, Lee, Sternberg, Greene, Boynton and a long line of other honorable witnesses. Call the newspaper men by all means.

SOLID NATIONAL FRONT

America has reached a crisis in her history. Only dastards will fail in their duty now, and that duty is to present a solid front to the envious nations that are watching for an opportunity to wrest from us the fruits of our victory over Spain. Any division, any hesitation in the support of our government will encourage these European nations in their nefarious designs; whereas, an overwhelming victory at the polls in November for the party responsible for the conduct of the war will be accepted by these nations as a notification to them that they must not interfere, to our detriment, but leave us free to settle with Spain in our own time and in our own way. In this election, therefore, ballots will count like bayonets.

The meaning of the unparalleled plurality by which the Republicans carried the state four years ago was that Democracy was distrusted. The meaning of the Republican victory two years later was that that distrust still existed. It had been intensified by Democrats distrusting each other. The conditions are no better this year, for in every one of the issues raised this campaign by Indiana Democracy, is the ghost of former defeat.

A pretty home wedding of respected Seymour people will take place here Sunday.

To Organize a Church.

To the Citizens of Seymour and vicinity:

It seemeth right and proper to make a statement, in this way, to you, concerning my presence here and the work that I am trying to do.

There comes a time in the history of every organization, political and religious, when differences arise and often culminate in disruptions, animosities and bitter hatred one for the other. These things are to be deplored seeing they do work ruin to the highest interests of the community. No good man can rejoice in divisions. After saying this much I need not say that I am not here to countenance and encourage such, but pray and labor for union. The reopening of old wounds is not only painful, but offensive, and so I shall not do more than to say that little differences and petty jealousies among some of the members of the Christian church of this city, have grown into open eruptions and a breach has been created that can never be closed until all those interested imbibe more of the spirit of Him "who went about doing good." I am not here in the interest of any party nor to countenance division among the professed Christians. I am here under the direction of the State Board, whose servant I am, who having previously found that there were some who would never return to the old church house, with its many unpleasant memories and yet desire to serve God to the best of their ability and understanding, and finding that this feeling was shared in by many alike; and knowing that, through mismanagement, the building and all its furniture had passed out of the hands of the congregation, and further was not a desirable house nor a pleasant location, we decided that, in the interest of peace and unity, it was best to secure a hall and begin anew; and organize an entirely new congregation composed of such only who are willing to live the religion that they profess. Such congregation to be governed by men whose fitting shall be measured by the Divine Standard. We feel ourselves sufficiently informed to say that the Christian church in this city has not been running along that line of high moral and religious standing which should characterize a church founded upon the New Testament doctrine. I am here to organize a new congregation, and I want to see all people unite with it who are willing to do good, be good and to labor to extend the boundaries of Christ's kingdom among men. But tattlers, busy-bodies in other men's matters, those who labor to create divisions and strife and those who propose to hold to the church with one hand and the whiskey glass, deck of cards and the ball-room with the other are not wanted. God wants and we want only such in the church who propose to so let their light shine that others may see that there is a reality in the religion of Jesus Christ, and glorify our father who is in heaven. We want no controversy on the matter and will not have it. We are here to preach a pure gospel and insist on pure living. The invitation is to all who love God and peace to attend the meetings at the Armory Hall. With love for all and malice toward none I am a servant of Jesus Christ and your brother,

H. C. PATTERSON,
State Evangelist.

Throne Throned.

The brain is the throne of the body. I it does not control, there's insanity. Weak nerves threaten this throne. Nervousness, sleeplessness, headache, loss of appetite, melancholy, faint and dizzy spells, neuralgia, all show weak nerves. These troubles come from too great pressure of poor blood on nerve centers. Electric Bitters cures them by equalizing the circulation of the blood, which it makes pure, rich and life-giving. It stimulates stomach, liver and kidneys and expels poisonous humors. Electric Bitters are a priceless boon to a vast army of men and women with weak nerves, stomachs and kidneys, lazy livers and sluggish bowels. Only 50 cents. Sold by Wm. F. Peter, Druggist.

Carlson-Cobb.

Last evening at 8 o'clock Mr. Nelson M. Carlson and Miss Alice M. Cobb, daughter of Mrs. Lucy Cobb, of this city, were united in marriage at the First Baptist church in the presence of a large circle of friends and relatives. The church was beautifully decorated for the occasion with palms and evergreens, there being a perfect bank of palms on the platform. Promptly at 8 o'clock Miss Orlena Huffmar, who presided at the organ played the wedding march from "Lohengrin" and the bridal party entered. The ushers, Messrs. Frank Cloud, of this city, and Robert Neighbor, of Indianapolis, entered from the rear and passed down the west aisle and to the platform. They were followed by the bridesmaids, Miss Lucy Boake, and Miss Lucy Hazelrig, of Greensburg, each wore white organdie over blue silk and carried white chrysanthemums. The maid of honor, Miss Agnes Neighbor, of Indianapolis, wore white organdie over pink silk and carried chrysanthemums. Next came the flower girl, Miss Lenore Stanfield, carrying a bouquet of bride's roses, followed immediately by the bride, who was beautifully gowned in Paris muslin over tulle. The long veil was held by a coronet of orange blossoms. As she came upon the platform the groom, with Mr. Mort Crabb, the best man, entered from the other side, meeting the bride in front of the bank of palms and under a beautiful decoration wherein the American and Swedish flags were tastefully intermingled, where the solemn and impressive ceremony was pronounced by Rev. J. W. Clevenger. During the service Miss Huffman softly played "O Promise Me" and at the conclusion of the ceremony she played Mendelssohn's wedding march as the bridal party passed out. A reception was held at the home of Mrs. Cobb, at the corner of 5th and Walnut street at which there was present relatives and a few immediate friends. Mr. and Mrs. Carlson left for St. Louis on the 11:30 train and will visit several points west before their return. They will be at home here after November 1. They were the recipients of many valuable presents. Those present at the wedding from out of town were Mr. and Mrs. T. A. Ackley, of Washington, Miss Fay Ackley, Cincinnati, Mrs. George Cooke, Home City, Ohio, Mr. and Mrs. J. B. McCoy and Mr. and Mrs. R. J. Elliott, of Indianapolis, Mrs. J. B. Pelens and children, Misses Myra and Louise and Master Elliott of Fort Wayne, Mr. Robert Neighbor and Miss Agnes Neighbor, of Indianapolis, and Miss Lucy Hazelrig, of Greensburg.

Blue Jackets.

Often you see a play that pleases the down-stairs, but fails utterly to catch the gallery, or one just the reverse, but with the new naval play "Blue Jackets" it can be truthfully said to make a hit with the entire house, from the boxes to the gallery.

There is always something in each play that appeals to each individual auditor. The new piece "Blue Jackets" is the most startling ever produced. In the first place its very name suggests something that fires the blood of every true patriot and makes him long to see how our brave sailor boys handled the subject of Spanish barbarity and to catch a reflection of the blowing up of the Maine. [This play comes to the Opera house Monday night, Oct. 24.

A Rat Killin'.

Last night about the time council adjourned J. G. N. Treg came up the street looking for a rat dog. Now John has a dog of his own but he is more inclined to go partners with the rats than to kill them. So with a dozen rats in a trap he thinks it wiser to borrow a neighbors dog than to risk his own. Accordingly Will Hustedt was summoned and requested to bring his terrier pup which he received from Iowa a few days ago. A dozen rats turned loose with a three months' old pup would be a good test so the pup was brought out. The space outside the railing in the city office was selected as the arena, and with Mayor Mills as referee the rat killin' began. Marshal Thicksten and Policeman Hopewell were present to see there was no violation of law. Inside of fifteen minutes there were eleven dead rats on the shelf and the terrier pup's name was ordered placed on the tax duplicate. The mayor ordered Mr. Nottage to set the trap again and capture the rest of the rat family.

Give the Children a Drink

Called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about much as coffee. 15 and 25c.

THE SOUTHERN INDIANA.

Has Been Converted Into a New Road Under Its Present Management.

Tuesday evening the Indianapolis News contained a column and a half write-up of the changes that have been made on the Southern Indiana railroad under the present management. The old Evansville & Richmond was a part of the Mackey system of roads that was to connect Evansville with Union City and the northern part of this state. Now things have changed. Mackey, shorn of his wealth, is working for a salary in a manufacturing establishment at Anderson. Kurtz as pleasant and genial as ever, is leading a quiet life as a dealer in Shetland ponies at Princeton, Ind., and the Evansville & Richmond has gone out of existence.

The road had a precarious existence from the first. Its soft iron rails and its rotten bridges were productive of accidents and damage suits. Mackey almost ruined his other roads and depleted their treasuries in trying to carry out his pet scheme. The crash came and Colonel Montgomery was appointed receiver. He did not have much to act as receiver for, but he did as well as circumstances would allow. But it was too much for him and he gave way to H. C. Barlow, now president of the Evansville & Terre Haute, and a most competent railroad man. The gray hairs in Mr. Barlow's head were grown during his services as receiver of the Evansville & Richmond, and his trials and tribulations would make a sad volume of railroad history. A year ago last March the spring floods washed out six miles of track and part of the road-bed, and no trains were run. Representatives of the receiver walked over the road, gathered up the money and valuables at the different stations and carried them into court. The few old engines began to rust away and the station buildings were nailed up.

About this time the attention of John R. Walsh, a wealthy Chicago capitalist, was directed toward the road. He went to New York and bought it. His testimony before the State Tax Commissioners was that he paid \$179,000 for the whole thing. He interested some other capitalists and the Southern Indiana railroad was the result.

The total mileage of the road is 102 miles, and its trains run from Greensburg to Washington. From Greensburg to Westport the company uses the Big Four tracks, and the tracks of the Evansville & Indianapolis from Elmore to Washington. In the 102 miles there were 198 trestles, and some of them very long and high up in the air. Of these, ninety have been filled in. All the others have been strengthened, and all of them will be filled up in time. President Walsh has had a change of the road something over a year. From March, 1897, to January, 1898, it was not operated at all. Since the latter date it has been practically rebuilt. At this time six work-trains and a team shovel, working over five hundred men, are engaged in putting the road in condition. Six miles of crushed stone ballast has been put down and a huge steam crusher is at work getting out broken stone for the purpose of ballasting the whole road. The old ties are gone, and when the season is ended the company will have put in 125,000 new ties, in some places 1,000 ties to the mile. The dangerous rails were taken out, and replaced with light steel. Seven miles of road have been laid with seventy-pound steel, and all the lighter rails will be taken up as fast as possible and replaced with the same kind of rails.

Seven new passenger stations have been built, and several others remodelled. Switches have been lengthened and passing sidings put in and semaphores have been put up. The company bought ten new engines, 450 new freight cars, and twelve passenger coaches. Forty miles of road has been ballasted with gravel, and miles of ditching has been done on both sides of the track. There is a tunnel 900 feet long in the road, and to make this perfectly safe the company has gone to a great deal of expense.

Lung Irritation

Is the forerunner to consumption. Dr. Bull's Pine-Tar-Honey will cure it, and give such strength to the lungs that a cough or a cold will not settle there. Twenty-five cents at all good drug stores.

Constant Coughing

Constant coughing is not only very annoying, but the continuous hacking and irritation will soon attack and injure the delicate lining of the throat and air passages. A simple cough is bad enough; but a chronic cough is really dangerous. Take advice and use the celebrated Dr. Bull's Cough Syrup at once and be cured.

Dr. Bull's Cough Syrup

Cures a Cough or Cold at once. Doses are small and pleasant to take. Doctors recommend it. Price 25 cts. At all druggists.

NEW DRIFTWOOD.

A Mr. Booker and wife has moved into the house with Aunt Julia Swasey.

Harry Ruddick and W. M. Quinn went to Washington county Monday on business.

Henry Herner and wife, of Seymour, was the guest of C. B. Reynolds and family Sunday.

Wyatt Ruddick had his ankle broken while at work on the Southern Indiana Saturday evening.

Frank Ruddick and wife visited the latter's daughter, Miss Ella, of Beech Grove, who is very sick with diphtheria.

The rain has damaged most of the shock corn here, which is a great loss to the farmer who has much corn in the shock.

How To Look Good.

Good looks are really more than skin deep, depending entirely on a health condition of all the vital organs. If the liver is inactive you have a bilious look; if your stomach is disordered you have a dyspeptic look; if your kidneys are affected you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils and gives a good complexion. Every bottle guaranteed. Sold at W. P. Peter's Drug store. 50 cents per bottle.

Invitations have been issued for the marriage of Miss Florence Greer, of Seymour and Mr. Carra Williams, of Elwood. The wedding will occur Wednesday evening, Nov. 2, at the home of the bride's mother, Mrs. Margaret Greer.

Glorious News.

Comes from Dr. D. B. Cargile, of Washington, I. T. He writes: "Four bottles of Electric Bitters have cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face and the best doctors could give no help but her cure is complete and her health is excellent." This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Price 50 cents. Sold by M. F. Peter, Druggist.

How to Prevent Croup

We have two children who are subject to attack of croup. Whenever an attack is coming on my wife gives them Chamberlain's Remedy and its always prevents the attack. It is a household necessity in this county and no matter what else runs out of it, it would not do to be without Chamberlain's Cough Remedy. More of it is sold here than of all other cough medicines combined.—J. M. Nickle, of Nickle Bros., merchants, Nickleville, Pa. For sale by C. W. Milhouse.

Arrested as He Alighted From the Train.

Franklin, Ind., Oct. 21.—George Weston was arrested here yesterday as he alighted from a train, on a charge of robbery from Martinsville. The stolen property was found on his person. It consisted of \$10 in silver and some trinkets. Among his papers was one directing word to be sent to Mrs. Elizabeth Weston, Louisville, in case of injury or death to bearer.

Attempted Criminal Assault.

Fort Wayne, Oct. 21.—George Waite attempted to criminally assault Miss Mary Irma, the young daughter of a farmer. Her father heard her screams and gave pursuit with an unloaded gun. He struck Waite with the stock, but he soon regained his feet and escaped.

Cut His Throat With a Razor.

Elwood, Ind., Oct. 21.—Robert Knotts, a young married man, attempted to commit suicide last night by cutting his throat with a razor. Twenty stitches were taken to close the wound. Domestic trouble is said to be the cause for the rash act.

Married to a Kentuckian.

Knightstown, Ind., Oct. 21.—Miss Stella Powers of this place and Romeo Hargrove of Louisville, have been united in marriage by Rev. Mr. Carson of the Presbyterian church.

THE STRAWBOARD REFUSE

Experiments to Be Made to Purify It Before It Enters Indiana Streams—Second Crop of Timothy Hay—Grand Chapter of Royal Arch Masons Elect Officers.

Fort Wayne, Oct. 21.—Over 1,000 people, 700 of them delegates, are in attendance at the international convention of Railroad Y. M. C. A. The convention opened last evening in the Baptist tabernacle. Rev. Dr. Moffatt delivered the address of welcome. The response was made by Richard C. Morse, general secretary of the international committee. Dr. J. H. Canfield, president of the Ohio University, delivered the principal address. Addresses were made by James M. Burwick of Two Rivers, Minn., C. G. Upham of Ontario and others. Business sessions commenced this morning.

STRAWBOARD REFUSE.

State Board of Health Considering Plans For Its Purification.

Indianapolis, Oct. 21.—The state board of health, a committee of the strawboard manufacturers and the state fish commissioner left here yesterday for Muncie to consider plans for the prevention of pollution of streams by the strawboard factory. It is proposed to conduct a series of experiments to determine whether the refuse may be chemically treated and rendered harmless.

The refuse which has poisoned the waters of Indiana and killed the fish, it is explained, largely composed of sugars. These ferment and become poisonous. It is proposed to destroy them by the use of yeast. The resulting fluids are to be passed through filter beds, and thus purified to be admitted into the streams. The solids will be largely converted into carbonic acid gas in the process, which, it is said, will not be expensive.

ELECT OFFICERS.

Grand Chapter of Royal Arch Masons in Session at Indianapolis.

Indianapolis, Oct. 21.—The Grand Chapter of Royal Arch Masons, selected the following officers: Grand high priest, Manual M. Fisher, Mishawaka; deputy grand high priest, Thomas R. Marshall, Columbia City; grand king, Renwick W. Crockett, Delhi; grand scribe, Simeon P. Gillett, Evansville; grand treasurer, Martin H. Rice, Indianapolis; grand secretary, William H. Smythe, Indianapolis; grand captain of the host, Alvin G. Tiltonson, Michigan City; grand royal arch captain, John J. Glendening, Washington.

TORN TO PIECES.

Engineer Jarrell Killed in a Boiler Explosion—Two Others Injured.

Freelandville, Ind., Oct. 21.—The boiler in the sawmill of Thomas Noltemeyer at this place exploded yesterday, killing the engineer, Frank Jarrell, and badly injuring George Broyer and Will Robbins. The explosion was terrific, and tore Jarrell to pieces. This is the second time the boiler in this sawmill has exploded, killing a man each time. Jarrell leaves a large family in poor circumstances.

Mrs. Fannie Dwigins Dead.

Rensselaer, Ind., Oct. 21.—Mrs. Fannie T. Dwigins, the wife of Hon. Robert S. Dwigins, who was the prohibition candidate for governor of Indiana in 1894, suddenly dropped dead from heart failure at her residence in this city yesterday. She was a woman of considerable ability and a conscientious Christian and a prominent worker in the temperance cause.

Second Crop of Timothy.

Elizabethtown, Ind., Oct. 21.—Thomas McKinney, who resides on a farm near here, is now harvesting his second crop of timothy this year from the same field. He cut the first crop in July, and strange to relate, the second crop is larger and of better quality than the first. The frequent rains and absence of frost combined to bring about this peculiar condition of things.
